(2) voip 號碼的「密碼」

輸入完成後按「Login」

Zoiper5

 **Zoiper**

For example K23XWkd23

Login

Create account

Username and password

If you already have a VoIP account, please enter your login credentials to the left.

Most often these are provided either by your VoIP provider, or by your system administrator for your office's IP PBX.

*we will try to automatically find the necessary configuration for your account. If such does not exist in our database, you'll be asked to enter specific details.

4.如下圖依序設定

Zoiper5

 **Zoiper**

Fill in your hostname and select your provider from the list

This could also be called 'Domain', 'SIP server', 'Registrar' or 'SIP Proxy'. For example 'sip.example.com' or '123.21.123.32:5060'

Back

Next

Hostname

This could also be called 'Domain', 'SIP server', 'Registrar' or 'SIP Proxy'. For example 'sip.example.com' or '123.21.123.32:5060'. You can also just search for the name of your provider, maybe we know the settings. If not – you'll be able to set it up manually.

☐

Optional

Authentication and Outbound proxy

Authentication username

Outbound proxy

*If your VoIP provider or office PBX does not require these additional settings click 'Skip' to continue

Back

Skip

Authentication username

Not sure if you need this? Ask your VoIP provider or system administrator about the requirements for your office PBX.

Outbound proxy

This is typically not required. However, in some special environments it is needed for network access.

Success!

We have found some transport type(s) that are available for your configuration. The default ones marked with 'Recommended' are priority ordered based on the stability and security of said protocols. However, you are free to choose manually one of the options

5. 右上角分別為“設定”以及“撥號”選項

6. 進入設定頁面，可設定麥克風及喇叭..等，輸入、輸出裝置
